

4A Isabella Grove STRATHDALE VIC

6 2 2

First time offered for sale, this Master Builders award winning home built by Luke Drummond, is located in the leafy suburb of Strathdale.

Passionately designed by the current owners, the wait for this home to become available for purchase has well and truly been worthwhile.

Situated on an allotment of approx. ½ an acre, the two storey design allows various separate living, entertaining and recreational areas which can be enjoyed in complete harmony with each other.

Incorporating 5 bedrooms, the opportunity to have the teenagers in a separate wing of the home will excite all parents. Living areas abound with a separate rumpus room, family room and home theatre. Two studies and a sewing/utility room ensure that all paperwork and hobbies are kept neat and tidy away from the day-to-day living rooms.
